Since 2013, combining AI-powered technology and content creators to provide curated, personalized content and solutions.

The largest library and distributor of travel content, offering destination guides for over 630 locations worldwide.

Specialized location intelligence for Travel and Real estate industries, offering map layers and location scores for booking platforms & websites.

What is Explore&Go?

Explore&Go is an **interactive map** designed to inspire, engage, and convert users into customers. This sophisticated digital solution empowers travelers to discover their perfect destination through personalized filters based on interests, budget, travel style, and preferences.

The platform goes beyond simple destination listings by offering **comprehensive information** for each location, including curated tourist attractions, high-quality images, engaging videos, and authentic local experiences. Every element is strategically designed to guide users seamlessly from initial inspiration to final booking.

Show and inspire

Show your routes/destinations and facilitate so that your traveler finds their ideal destination

Results based on interests

Filter by area, interests, price, and number of stops

Increase conversion

Convince indecisive users and ease their purchase decision

Whether travelers are seeking adventure, relaxation, cultural immersion, or romantic getaways, Explore&Go provides the inspiration and information they need to make confident booking decisions. The result is a tool that not only engages users but drives measurable business outcomes for travel companies.

Powerful Features **that set you apart**

Your destinations in a personalized interactive map

Your clients will have access to all your destinations through a highly interactive map, moving seamlessly across rich visuals, images, and videos tailored to their travel preferences.

Your company can always **prioritize routes** deciding which cities to show first

Filters

Categories tailored to traveler interests: art & culture, nature, romance, adventure, and more. Combine multiple filters by **region, theme, destination, and price** point. Integrated call-to-action buttons strategically guide users toward booking or conversion at optimal moments.

Add **your own tags, filters** or areas.

Price Integration

API connectivity for live pricing data and built-in analytical tracking.

Launch urgency-focused campaigns like "Weekend getaways under \$100" or "Book this weekend and earn bonus miles" with pre-filtered links that drive immediate action.

Powerful Features **that set you apart**

Extensive Personalization Capabilities

Custom **CTAs**

Direct users to booking pages, partner offers, or campaign-specific landing pages with tailored messaging.

Content **Localization**

Adapt content by market, language, and interest to resonate with specific audience segments.

Campaign Curation

Select specific destinations, categories, and themes like "Ski Resorts" or "Christmas Markets".

Visual Adaptation

Adjust seasonal aesthetics (summer/winter themes) and align look & feel with your brand identity.

Real-World Use Cases

Explore&Go is a versatile tool for multiple marketing needs, not just a website feature. It creates localized landing pages, supports seasonal/paid campaigns, enriches email marketing, and activates interest-based promotions. This flexibility allows travel companies to reuse the technology across their entire marketing strategy, making it a practical, high-value asset.

1. Market Promotions

Create localized landing pages tailored to specific geographies such as USA, LATAM, Asia, and European markets. Customize content, language, and offers to resonate with regional preferences and cultural nuances, maximizing relevance and conversion potential.

2. Seasonal Campaigns

Highlight perfect destinations for winter sports, summer beaches, spring festivals, or holiday getaways. Dynamically adjust content themes and visual aesthetics to match the season, creating timely and compelling inspiration for travelers.

3. Email Marketing

Integrate destination inspiration directly into newsletters, transforming routine communications into engaging travel discovery experiences. Drive click-through rates and conversions by making every email an opportunity to explore and book.

4. Paid Media Support

Use destination inspiration as the landing experience for paid advertising campaigns across Google, Facebook, Instagram, and other platforms. Improve ad performance by providing relevant, engaging content that matches user search intent and ad messaging.

Regional Campaigns

Promote entire regions or country-specific travel programs with curated destination collections

Interest-Based Filters

Target specific traveler segments like adventure seekers, culture enthusiasts, or food lovers

Benefits that drive results

Explore&Go delivers transformative value for both travelers and travel companies, creating a win-win ecosystem that enhances experiences while driving business growth.

For Travelers

Personalized Interactive Inspiration: Access **all-in-one place** stunning images, engaging videos, insider tips, and curated points of interest that bring destinations to life before booking.

Complete Information: Filter destinations by interests, vacation types, and price ranges to find exactly what they're looking for.

Multilingual Experience: Navigate seamlessly in over 15 languages, ensuring accessibility for global travelers.

Seamless Journey: Enjoy a fluid experience from initial exploration through final booking, with no friction points along the way.

For Companies

Marketing Asset: A powerful tool focused on improving performance, simplifying content management.

Drive Conversion: Increase booking rates through strategic engagement and optimized user journeys.

Understand Users Better: Gain valuable insights into traveler preferences, behaviors, and decision-making patterns.

Reduce Content Creation Effort: Leverage Smartvel's comprehensive content library with built-in translation, categorization, and geolocation.

Strengthen Brand Presence: Feed your company's channels with high-quality, ready-to-use content that reinforces your brand identity.

Success Stories

Iberia

Utilizes Explore&Go to power newsletters and campaign microsites, generating significantly higher engagement without depending on the IT team for updates. The platform enables marketing teams to launch campaigns quickly and independently, responding to market opportunities in real-time.

By leveraging Explore&Go's content updates and flexible configuration, Iberia has streamlined their content marketing operations while maintaining high-quality, inspiring destination content that drives bookings across their route network.

TAP Air Portugal

TAP Portugal was looking for an innovative way to inspire and attract travelers from an specific market to its extensive network of destinations.

The challenge was clear: to showcase the breadth of its destination network in an attractive and efficient way, driving traffic to its website and increasing conversion from the very beginning of the customer journey, when travelers are still deciding on their next destination.

Beyond Airlines

Other strategic partners have leveraged Smartvel's comprehensive content ecosystem for **B2B programs and loyalty initiatives**, enhancing perceived value among their user base.

These implementations demonstrate how Explore&Go adapts to various business models, from direct consumer engagement to B2B partnerships and loyalty program enrichment.

- ❑ **Common Success Factors:** Reduced dependency on IT teams, faster campaign deployment, improved engagement metrics, and measurable increases in conversion rates across all implementations.

Metrics That Matter

Explore&Go incorporates an analytical layer that measures performance across the entire user journey, from initial reach through final conversion. This comprehensive tracking enables data-driven optimization.

Comprehensive Analytics Dashboard

The metrics clearly demonstrate how effective the content is at attracting users, keeping them engaged, and converting their interest into tangible business results. Track which destinations perform best, which filters users prefer, and which CTAs drive the most bookings.
