Product Sheet

The ideal destination for every traveler

This product provides tourist destination options and helps the traveler select one based on personalized filters. Additionally, it provides detailed information about each destination, including tourist attractions, similar destinations and reasons to visit. The product becomes a personalized assistant that helps people efficiently and satisfactorily discover and plan their ideal travel destination.

What is used for

Help your travelers find their dream destination according to their interest and preferences regarding type of vacation, places, prices and many other filters completely tagged.

INNOVATION

| AI TECHNOLOGY

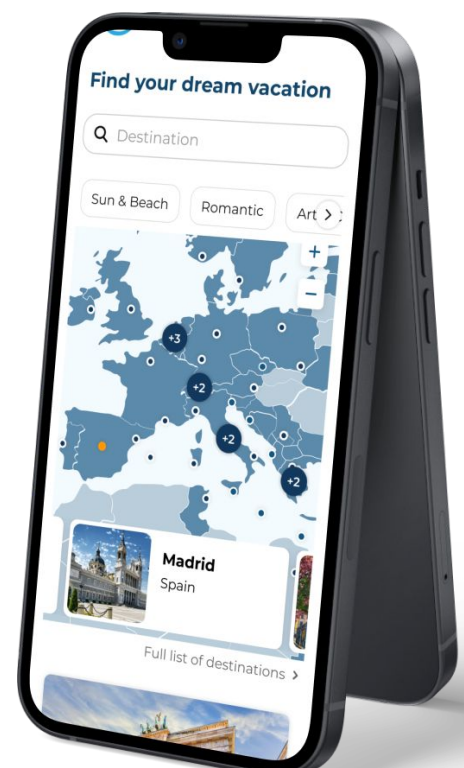

| HUMAN TALENT
